Colchester Has Not Been Defeated

(Special to the Bulletin) Colechester Sept. 3.—Saturday the Colchester baseball team defeated Lebanon 16 to 5 in the last game of the season. This makes the eleventh straight home-victory without a defeat; making a total of 119 runs to our opponents 48. We doubt if Colchester ever had as many home games in a season before and we feel safe in saying that she has never before won them all. Tee much credit cannot be given to Taylor and Gillitz, who came to Colchester last Spring unknown, and have since made themselves famous in the base-ball world. WILL LAUNCH A JUNIOR RED CROSS New Organization Will be Open to All School Children in the Country. (Special to The Bulletin.)

Washington, D. C., Sept. 3.-Henry

P. Davison, chairman of the Red Cross THING IN THE MEAT LINE. War Council, announces the launch ing of a Junior Red Cross open to all school children in the country. The new organization, hopes to become a channel for patriotic service and interest to the 22,000,000 boys and girls of school age in the United States.

Membership in the Junior Red Cross is to be by schools. Whenever there has been placed in the local board fund an amount equal to 25 cents for every pupil, the school becomes a school auxiliary of the Red Cross, and is entitled to display a special Red Cross banner. At the same time evcry pupil becomes a Junior member and is entitled to wear the member ship button.

The school fund can be raised by the school, or collected by subscrip-tion. In some states it will be raised by cities to cover all schools in the city districts. In other states the campaign will be for a statewide fund and the enrollment of all the pupils in the state. In every case, however, the schools are to be associated with the local chapters of the Red Cross the Red Cross to undertake this important works.

the purchase of materials which the children will make up into Red Cross supplies, and for other uses in which the children will have a personal share. No part of it is to go for chapter or general expenses.

Membership in the Junior Red Cross will be developed by states. Division managers will appoint membership committees and school activities committees for each state. The membership committee stimulates interest and raises funds for the school supply fund. It will be composed of some of the most influential people devoted to educational affairs to educational affairs.

The school activities committee will be made up of vocational teachers and other school officials. Under its direction patterns of articles to be made and other instructions for use in the vocational class rooms, will be prepared and sent to all the schools.
